**RE: NPDES Permit Number: AR0034126, AFIN: 30-00040
Corrective Action Plan Request**

Dear Mayor Weldon,

A review of the NPDES file for the above mentioned facility for the period of November 1, 2015 through November 30, 2018 reveals the City of Malvern has reported sixty (60) Sanitary Sewer Overflows (SSOs) totaling over 6,910,840 gallons in the thirty-six (36) month review period. SSOs are unpermitted discharges and the Department expects the City of Malvern to continue to work towards eliminating them.

The Department requests an update on the Corrective Action Plan (CAP) dated October 22, 2014. Please include an updated milestone schedule detailing measures that are being taken or that will be taken to reduce SSOs and the date the facility expects to be in compliance.

Additionally, the Department requests a map of the reported SSO occurrences. Your response should reach the Department by **February 15, 2019**.

Any violation of your NPDES Permit is subject to enforcement action by this Department, pursuant to the Arkansas Water and Air Pollution Control Act. The regulations and your NPDES Permit require that you take all reasonable measures necessary to eliminate or prevent the occurrence of violations.

Should you have any questions concerning the above referenced compliance issues, please feel free to contact me at 501-682-0639, or you may e-mail me at bailey.taylor@adeq.state.ar.us.

Sincerely,

A handwritten signature in blue ink that reads "Bailey Taylor".
