RE: NPDES Permit No. AR0034126, AFIN 30-00040  
Sanitary Sewer Overflows

Dear Mr. Wheatley:

A review of the NPDES file for the above mentioned facility for the period of October 1, 2011 through October 3, 2014 reveals the following compliance issues:

The City of Malvern has reported 76 Sanitary Sewer Overflows totaling over 220,000 gallons in the 36 month review period. Sanitary Sewer Overflows are an unpermitted discharge and the Department expects Malvern WWTP to work towards eliminating them. ADEQ requests that you prepare a report detailing work that has been and will be undertaken in this regard, including a timeline for compliance. Please submit this report for review by October 31, 2014

Any violation of your NPDES Permit is subject to enforcement action by this Department, pursuant to the Arkansas Water and Air Pollution Control Act. The regulations and your NPDES Permit require that you take all reasonable measures necessary to eliminate or prevent the occurrence of violations.

Should you have any questions concerning the above referenced compliance issues, please feel free to contact me at 501-682-0636, or you may e-mail me at [porterg@adeq.state.ar.us](mailto:porterg@adeq.state.ar.us).

Sincerely,

A handwritten signature in blue ink that reads "Gina Porter".
