REMARKS:

AGENDA

City of Mena, AR0036692

Monday, September 9, 2015 at 2:00pm

1. Introductions and meeting sign in sheet
2. The City has chosen Project Alternative 3 from the Master Plan and will proceed with constructing a new WWTF at a new undetermined location.
 - a. Hoping to find a location without the Copper criteria
 - b. Also looking to move closer to the City to eliminate the need to repair significant I&I on the miles of pipe running out to the existing plant.
3. Filters at existing facility are working fine as of now and will not be replaced.
4. The broken valve can possibly be replaced by a slide gate in another location. This can be added to the construction permit for the installation of the dechlorination.
5. Mena will continue to measure flow and collect samples of bypass discharges.
6. Funding: (grant, loan, and rate increase)
 - a. City Council is on board with rate increase and it is anticipated that whatever rate is needed will pass.
7. Comments
 - a. The SSES plan will be submitted January 1, 2020
 - b. Change progress reports to quarterly
8. Response and/or follow-up if necessary.
 - a. City of Mena will need to submit a CAO extension request signed by the Mayor.
