Subject: NCR Needed Oct 2022

Good morning,

Upon review of the October 2022 DMR (001-A), NetDMR has flagged Dissolved Oxygen as being outside of the parameter limits as listed in your permit for the City of Mena (AR0036692). Our records do not show that a Non-compliance Report (NCR) has been reported. Whenever there is a discrepancy between permitted parameters and the sampled values, a NCR is required. Please submit it directly to me ASAP.

Thank you,

KRISTEN GRAHAM
