North Little Rock AR 72118-5317

**Subject: NPDES Permit No. AR0042846  
May, 2017 DMR**

Dear Sir,

Enclosed is the May, 2017 Discharge Monitoring Report covering all three outfalls.

There was one exceedance of a limit for fecal coliform for outfall 003. The person doing the sampling did not follow the proper procedure to avoid contamination of the sample. There were also heavy rains at the plant on the previous day. The person doing the sampling was retrained on the proper procedure.

The Dissolved Oxygen monitor would not properly calibrate to obtain a satisfactory reading. Replacement probes were obtained to avoid this situation in the future. Please call if you have any questions.

Sincerely,

Ted Jennings
