Allen,

Per our conversation this morning, I am writing to let you know that we overflowed our equalization system and our wastewater treatment facility this morning at approximately 1 AM through 6 AM this morning. We have received over 10 inches of rain over our collection system the past two days. If you need any more information don't hesitate to call me at 479-273-7378 extension 307

thank you
Robert Moore
