Dear Mr. Anderson:

RE: NPDES Permit Number AR0043397

This email is in response to our phone conversation this morning informing the agency of a lack of Chlorination at the Rogers Pollution Control Facility. This incident began at Approximately 3: 00 pm Friday afternoon and was corrected Monday morning at approximately 9:00 am. I will be writing a letter to you in the coming days to inform of the corrective action the staff at the treatment plant took to solve the issue as well as actions taken in the future to avoid this type of situation from happening again.

David A. Staib
Operations Team Leader
Rogers Pollution Control Facility
