Re: City of Magnolia Quarterly Progress Report  
AFIN: 14-00059 NPDES Permit No. AR0043613

Dear Ms. Taylor:

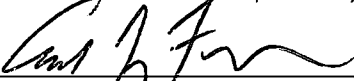

The Utility is continuing to make progress in completing the smoke testing and making service repairs. As previously reported, most of the service line leaks have been a result of missing caps.

The City received Construction bids for equalization basin sludge removal and disposal along with an automated chemical feed system at the WWTP. The City Council awarded each project to the lowest responsive, respective bidder on April 23. Construction will begin on each as soon as possible.

If you require additional information, please contact me, Mayor Parnell Vann or Russell Thomas of the Magnolia Waster Water System.

Sincerely,

A. L. FRANKS ENGINEERING, INC.
