08/19/2013	Fecal Coliform Bacteria (FCB) 7 DA GEO		800 colonies	400 colonies

We feel like this problem was due to:

The City owned Water treatment plant discharging backwash water and sludge to our system.

We believe this is causing a shielding affect to our chlorine.

We plan on correcting the problem in this manner:

Permitting the water system once we have all our analytical data collected for the water treatment plant.

Time estimated that it will take to correct problem:
