SMOKE TESTING SEWERS

August 3, 2016

The Magnolia Wastewater crew will be smoke testing sanitary sewers in the Junior High School area starting August 8th 2016.

Other areas will include the following streets:

North Street beween Dudney and Verda.
West Union between Dudney and Pine.
East McNeil Between Dudney and Jackson.
North Oakland.
Parkway.
Smith Street Between Dudney and Olive.
Verda.
Wilson.
Lucy Circle.
Nursery St.
Joy St.

This test will assist us in locating breaks and defects in the sewer system. During the test **YOU MAY SEE SMOKE COMING FROM VENT STACKS ON BUILDS OR HOLES IN THE GROUND.** Don't be alarmed. The smoke has no odor, is non-toxic, non-staining, does not create a fire hazard, and will dissipate in a few minutes.

Before we conduct the smoke test, please pour water into your floor drains and unused sinks. This will seal the drain traps so smoke will not enter your building through the drain.

If Smoke should enter your building during the test, it probably means that there are defects in your plumbing that could allow **DANGEROUS SEWER GAS** to enter your building. Note the location of the smoke and call the number at the

bottom of this to arrange a meeting with our inspector. Open doors and windows to ventilate any smoke that enters your building.

Please notify us before we conduct the test if you have any of following situations:

- dogs, birds or other pets that will be confined alone in the building during the test.
- A person who will be alone and is an invalid or sleeping during the test.
- Any individuals with respiratory problems who will be in the building.
- Elderly persons who will be alone and might be alarmed or confused if they see smoke.

If you have any of these situations or have questions regarding the smoke test, call:

City Hall	234-1375
Russell Thomas	904-1694
Wastewater	234-2955

We started smoke testing the system on March 7, 2016
