

**NPDES Permit No. AR0047384
Anthony Forest Products - Urbana
Noncompliance Report
March 2019**

All parameters sampled at Outfall 001 were within permit limits except for the following:

Outfall	Parameter	Date	Permit Limit	Sample Result
001	Total Suspended Solids (TSS)	03/01/2019	Monthly Average 35 mg/L	37.5 mg/L

There were no obvious indicators for the elevated TSS levels. This was the first TSS exceedance since June 2016. If future discharges from the wet deck pond results in further permit excursions, Anthony Forest Products may perform an additional evaluation of the wet deck system to minimize discharges or decrease pollutant levels.
