Re: DMR Submittal – NPDES Permit No. AR0047384 – Anthony Forest Products – Urbana Mill

To Whom It May Concern:

Enclosed you will find two sets (original & copy) of our monthly (October 1, 2014 – October 31, 2014) Discharge Monitoring Reports for the above referenced permit. All parameters were within permit limitations. A leak was discovered in our boards used to “block-in” our wet deck recirculation pond that caused a discharge through Outfall 001. The boards were repaired and the discharge stopped following all the permit required sampling.

Please do not hesitate to contact me at (870) 962-3206 or Kyle Hathcote with GBM^c & Associates (501-847-7077) should you have any questions or need additional information.

Sincerely,
Anthony Forest Products

Stephen Murphy
General Manager
