Thank you for calling to say you guys will need more time to submit the reports.

Just so you know what we need I have included what each report needs to cover.

1. Submit Mercury Minimization Plan (MMP) progress report
2. Submit a progress report addressing the progress towards attaining the Final Effluent Limitations for Total Recoverable Cadmium.
3. Whole Effluent Toxicity (WET) Limitations for P. promelas chronic toxicity limits

Just making sure the report that is due on 6/30/2020 will be delivered on time.

Here is what it needs to contain:

1. Submit Mercury Minimization Plan (MMP) progress report
2. Submit a progress report addressing the progress towards attaining the Final Effluent Limitations for Total Recoverable Cadmium.

We do not have a template.

We expect the facility to submit to us a document that answers the requirement that the Permit listed for this document.

Gavin,

Do you have a template or example of a Mercury Minimization Plan that we can use? We are working on this and wanted to see what it should look like.

Thanks,

Donna
