RE: NPDES Permit Number AR0048836, AFIN 71-00018 Request for missing DMR data

Dear Mayor McCormac:

DEQ has reviewed the submitted DMRs for this facility and has noticed some issues:

1. Overdue DMR Parameter Violations: 001-A 01/31/2020 Overflows (74062) & Overflow Volume (74063).

Please go onto NetDMR and submit the two missing parameters for the monitoring period for 01/31/2020. These missing DMR parameters are violations of the Permit and could lead to formal enforcement.

Thank you for your attention to this matter. Should you have any questions, feel free to contact me at 501-682-0667 or at gavin.gray@adeg.state.ar.us.

Sincerely,

GamiGuy
