Date of Non-Compliance	Parameter Exceeded	Quantity or Loading	Quality or Concentration	Permit Limits

8/26/2020 & 11/11/2020	Tot Suspended Solids (mg/L)		67.5 & 200	15 / 22

We feel this problem was due to:

~~Inadequate maintenance of sanitary treatment system due to COVID-19 combined with gradual increase in outside log truck drivers using restrooms at plant.~~

We plan on correcting the problem in this manner:

~~We have retained an Environmental Management Services, Inc. (engineering consulting firm) to investigate operating history and current conditions, and oversee necessary maintenance to improve operation; then make design improvements if necessary. Their work is ongoing as of January 2021.~~

Time estimated that it will take to correct problem:

~~If new treatment system is required, process of design, permitting, and installation could take 6-12 months~~

Sincerely,

Phil Witter
