You are correct. I only had authorized access for ARG550398 and not ARG550540, which I just applied for. Sorry for the confusion.

Mr. Witter,

I have attached a copy of the last notice of intent and the last inspection related to this Permit for your information. According to the NOI, the system was installed and the location was moved across a road during the installation. The gps coordinates of the outfall are included on the NOI. If the system is installed and operating, I would suspect that it is required to be permitted.

Please advise on this status at your earliest convenience.

Permit ARG550540 is no longer in use. Do we need to do anything on our end to have this permit number removed from record. I have been directing environmental compliance since we purchased Anthony Forest Products Company and have not run across this permit. Thank you
