We feel this problem was due to:

~~Gradual increase in outside log truck drivers using restrooms at plant.~~

We plan on correcting the problem in this manner:

~~Environmental Management Services, Inc. (engineering consulting firm) has designed a new upgraded treatment system. The design has been approved by the Ark Dept of Health and ADEE. Supply chain issues resulted in delayed delivery of the system from the manufacturer, but delivery is now scheduled for July 2022.~~

Time estimated that it will take to correct problem:

~~Installation of the new treatment system is currently estimated to be completed by September 30, 2022~~

Sincerely,

Carol Austin
