Re: NPDES General Permit Tracking Number ARG160045 – AFIN 72-00144

Dear Mr. Thompson:

The Notice of Intent (NOI) package for coverage under the Sanitary Landfill Runoff General Permit, ARG160000, was received on 8/26/2010. In accordance with Department policy, the NOI has been reviewed and has been determined to be complete. Coverage under this general permit will be effective the date of this letter. Enclosed are a copy of the Notice of Coverage (NOC) and the General Permit ARG160000.

The NOC is for informational use only and if any information provided on the NOC is incorrect please notify the Department immediately so that our records may be corrected.

The permittee previously operated and discharged under NPDES General Permit Tracking Number ARG160003, which expired. The permittee did not submit renewal NOI within the set deadlines to renew their permit. Therefore the Department is issuing new permit tracking number ARG160045 and new notice of coverage to the facility. The facility will be assigned the same AFIN 72-00144 as the previous permit for tracking and compliance purposes.

Please be advised that the permit contains monitoring and reporting requirements. The Department requests that you read and familiarize yourself with the terms and conditions of the permit. Compliance with all conditions and limitations therein is required. Any permit-related correspondence must include the Tracking Number shown above. Pre-printed Discharge Monitoring Reports (DMRs) will be mailed to you at a later time by the Department.

The operator of this treatment facility shall be a licensed Industrial operator in the State of Arkansas in accordance with Act 1103 of 1991, Act 556 of 1993, Act 211 of 1971, and Regulation No. 3, as amended.

Please contact the General Permits Section of the Water Division at (501) 682-0623 if you have any questions.

Sincerely,

Mo Shafii
Assistant Chief, Water Division
