RE: NPDES Stormwater Construction General Permit, New Kiln Construction, Foreman, AR  
**Permit Tracking No. ARR152462, AFIN 41-00001**

Dear Mr. Streitman:

The initial permit fee and Notice of Intent (NOI) for coverage under Stormwater Construction General Permit No. ARR150000 were received on 8/31/2007. The NOI has been reviewed and determined to be complete. For tracking purposes, the project has been assigned permit tracking number, ARR152462. Please use this number in all future correspondence related to this construction project.

The Stormwater Pollution Prevention Plan (SWPPP) has been reviewed and all elements required by the SWPPP checklist were included. Please note that review of the SWPPP does not constitute **approval**. The permittee must comply with all the requirements of the NPDES Stormwater Construction General Permit No. ARR150000. Additionally, the permittee may modify the SWPPP as necessary to protect the Waters of the State from erosion and/or sediment runoff. **Please be advised that all certifications contained in the SWPPP must be signed prior to commencement of construction activities on the site.**

Please find enclosed for your use: the construction site permit authorization letter, a copy of the general stormwater runoff permit, and a Notice of Termination (NOT).

If you have any questions concerning this matter or need additional information, please feel free to contact Nick Willis, NPDES Stormwater Engineer at (501) 682-0619 or myself at (501) 682-0616.

Sincerely,

Mo Shafii  
 NPDES Permit Branch Manager
