RE: Enhanced In-Situ Bioremediation
El Dorado Chemical Company

Dear Mr. Brown:

This will confirm our recent telephone conversation whereby I notified you that Woodward-Clyde began the preliminary field tests on May 27, 1999. The tests are anticipated to last approximately eight weeks. Results of the preliminary field tests and plans for implementation will be presented to you by report around August 29, 1999.

Please contact me at (405) 235-4546 if you have any questions.

Sincerely,

A handwritten signature in cursive script that reads "John M. Carver".

John M. Carver
Vice President Safety and
Environmental Compliance
