September 18, 2015

Dear Katherine McWilliams,

I am requesting a public hearing on the land application of hog waste submitted by Ellis Campbell. Mr. Campbell is a neighbor and friend and I respect his right to make a living but I am concerned that spreading hog waste in the Vendor valley would severely affect my right to make a living.

I own and operate a log cabin tourist rental business in the Vendor valley. The proposed fields surround my business and my guests would definitely notice the odors from the hog waste. I also have a hiking trail across one of the fields to the Red Rock Cemetery, a popular attraction due to Civil War graves and still used for burials.

My family drinks the water from our spring. Recent dye tests show the spring could be contaminated due to the Karst topography if hog waste was spread on the proposed fields.

I appreciate your concern in this matter.

Thank you,

Sandy Swayne
