Charles,

I have a couple of questions about the list you sent:

- There are 17 Zones listed, but I only have a map that shows Zones 1 through 15. Can you provide me a map of Zones 16 & 17?

A copy of the plan showing zones 16 and 17 is going out in the mail to you.

- When you say that Zone 10 is combined with Zone 8, what exactly do you mean? has the SF and max capacity already been combined in that list and I can just delete Zone 10? **YES**

I'm assuming that since Zone 8 is listed as active and Zone 10 has been combined with it, that the entire thing is now active, but that may not be correct.

Additionally, can you tell me what type of vegetation cover is on the irrigation fields? (Bermuda, fescue, etc.) **I do not know the type of grass growing on the field. Past permits had no requirements for the type of vegetive cover. I will check with the operator to see if we can find out and get back to you**

Thanks,
Sarah Cousins

Sarah: Sorry it has taken so long to get this to you, we had some mixups along the way.
