Unfortunately, I can't just take your answers. They have to be submitted on an ADEQ form.

OK. One more thing—I hope! What needs to be on that section of the application is the 911 address of the facility, including the ZIP code and section/township/range. Could you submit me a new page one with that on it, or do I need to email the consultant for that? (The current application is missing the ZIP code and the section/township/range.) Also, since we formerly had the facility listed in a different city, I need to be sure that the facility address listed is, in fact, the 911 address.

Thanks!

What is the Little Flock address? It's illegible on the application.

Thanks,

Amy Deardoff P: 501-682-0650 F: 501-682-0880

The Trillium Lane address is a former office address for our company. The Little Flock address is the location of the treatment facility

Subject: ADEQ renewal application 4811-WR-2

Ms. Bartlett:

I received your application on 7/29/2014. Before I can route it to an engineer, I have a question about your application (attached.)

On page one, section three of the permit application, it gives a different facility location than we have on file. I can't read what's written, but what we have on file is 1849 North Trillium Road in Fayetteville. The application gives a different street address and lists the city as Little Flock. However, the lat/long are the same. What caused the change?

Thanks,

Amy Deardoff
