Re: Permit No: 4811-WR-5 AFIN 04-00899

I am in receipt of your letter dated January 15, 2025, regarding the above referenced permit application deficiencies. Due to the length of time that has lapsed since the submission of said permit renewal (May 4, 2020) and the associated CAP submitted October 29, 2021, several issues have transpired. The original engineer, Charles Presley, has retired and therefore will not be able to be hired. We have spoken with several other engineering firms, and they will not be able to look at the project for 2-3 months, let alone complete the work.

Investigative work and associated analysis will also be required by a Professional Soil Classifier which adds to the time necessary to respond to the department's request.

Therefore, I would like to request a 6-month extension to complete the requested deficiency items.

Please advise at your earliest convenience so we can plan accordingly.

Thank you for your time and consideration in this matter.

Regards

Kathryn Bartlett
District Commissioner
Benton County, Arkansas Suburban Sewer District No. 1- Villages of Cross Creek
