Re: Permit No.: 4815-WR-3; AFIN: 72-00974

Dear Mr. Holmes:

The application for a no-discharge permit was received on January 2, 2015. It has been determined that your application is administratively complete. In accordance with Arkansas Pollution Control and Ecology Commission's (APC&EC's) Regulation No. 8.205(A), notice of application permitting decisions shall be published in a newspaper of general circulation in the county in which the facility or activity proposed to be permitted is located. Regulation No. 8.205(D) requires that the applicant pay the costs of publication of notice of an application permitting decision. The newspaper of general circulation for your facility is the Northwest Arkansas Times, which requires that the legal ad be paid before the notice is published. Multiple attempts to reach you by phone to address this issue have been made by both the Department and the newspaper. Please contact the Northwest Arkansas Times if you wish to publish the notice for the draft permit.

If you no longer wish to pursue a permit, please submit a letter requesting that the permit application be withdrawn. If neither of these options are pursued **by two weeks from the date of this letter**, then the permit will be considered withdrawn and the application returned to you.

Thank you for your cooperation in this matter. If there are any questions concerning this issue, please contact Colby Ungerank at (501) 682-0047.

Sincerely,

A handwritten signature in black ink, appearing to read "John Bailey", is written over the typed name.

John Bailey, P. E.  
Permits Section Branch Manager
