Casey

Attached is the plat showing the pit locations in the drip field. Hope this helps. This is all I have at this point

Try the attached. It's not the entire property but you should be able to match it up with a topo of the property.

Hi Sheri

I am no able to open auto cad nor is Southern repographics able to print from auto cad. They asked for it in pdf. So we sent them a version in pdf but when I look at the printed sheet they did it is impossible to read. Do you have any way to go into this an edit it to help make it more clear? Or at least if you could call me then we could maybe review it so I can get the pit #'s as they are shown and rewrite them on the plans.

Thanks
Kathy Bartlett

Kathy,

I found my file on Sloan Estates. Attached are the autocad drawings showing the location of the pits. Let me know if you need additional information.

Sheri
