RE: Removal of Operator and Cognizant Official

To Whom it May Concern:

Effective April 1, 2020 New Water Systems, LLC transferred all operation and maintenance contracts, agreements, and other related business to Meinco Wastewater of Alexander, AR. All customers and permit holders were notified of this change to the best of our ability using the contact information we had available.

Some permit holders may have elected not to contract with Meinco Wastewater. However, New Water Systems has discontinued operation services for those facilities, and we are not aware of their current arrangements for licensed operator services.

At this time, I request that I be removed as Cognizant Official, operator, or consultant on each of the following permits:

AR0047440	Scott School System

Please be informed that I may have signed Cognizant Official forms as either Andy Davis, or Mark A Davis.

Please remove both names from the permits listed above, as well as any other permit that I may have been listed as cognizant official, operator, or consultant.

Although I am no longer in operational charge of these facilities, I will maintain an active operator and engineering license and I will continue working in the field of wastewater treatment. If I can ever be of assistance to the people of ADEQ and the people of Arkansas, please do not hesitate to call.

I appreciate the professionalism the people of ADEQ have always displayed in my 20-year career of engineering and operating small wastewater systems.

Sincerely,

New Water Systems, LLC
