RE: Permit Track No.: 4875-WR-3; AFIN: 72-01656

Dear Mr. Levine:

The Department received a request for an extension from your operator, Kathryn Bartlett, on your behalf on your permit application deficiencies. The Department grants this extension. The Department still requires the information requested by the letter dated November 16, 2017 in order to process your application. Please submit your information to the Department by January 31, 2018.

If the Department hasn't received the requested information by that date, your application will be returned to you. The Arkansas Water and Air Pollution Control Act (A.C.A. Sec. 8-4-101 et seq.), as amended, requires that any waste disposal system that does not discharge directly into waters of the State must be under the terms and conditions of a no-discharge water permit. If you wish to further pursue a permit for the proposed facility, you may update your application according to the letter dated November 16, 2017 and re-submit to the Department.

Thank you for your cooperation in this matter. If there are any questions concerning this submittal, please contact Katherine McWilliams of my staff at (501) 682-0651 or by email at mcwilliamsk@adeq.state.ar.us.

Sincerely,

Bryan Leamons, P.E.
