RE: Legacy Estates Subdivision
Request to Allow Additional Services
Washington Water Authority – Washington County
ADH Project 56300

Attn: Kathryn Bartlett

We have received and reviewed the request to allow additional 1 to 3 services to be connected to the sanitary sewer system for Phase I of the Legacy Estates Subdivision.

A review of our records revealed that the wastewater treatment system for Phase I was originally designed for 107 homes and was approved as such; therefore, we cannot approve the addition of services beyond the 107 homes for which the system was originally designed.

When submitting correspondence pertaining to this project, please include our reference number 56300.

Sincerely,

Craig Corder, P.E.
Chief Engineer
