RE: Permit Number 4983-WR-3, AFIN 63-00922

Dear Mr. Timby:

A review of our records indicates that your permit will expire on January 31, 2019. In accordance with federal and state regulations, permittees wishing to continue operating subsequent to the expiration date of their permit are required to apply for a renewal permit **not less than 180 days** prior to the permit's expiration date.

A copy of the Permit, renewal forms can be obtained at the following website:

<https://www.adeg.state.ar.us/water/permits/nodischarge/individual.aspx>

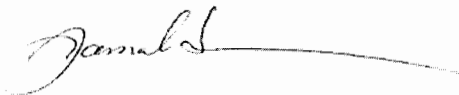

Please fill out the application forms and return them to the address at the bottom of this letter as soon as possible. Documents may also be submitted in PDF format to [water-permit-application@adeq.state.ar.us](mailto:water-permit-application@adeq.state.ar.us).

Due to the large number of renewal applications, a **complete application** must be received **no later than 180 days** prior to the expiration of your permit. Any permit that expires without the receipt of a renewal application will no longer be valid. In such a case, a new permit application must be submitted. Operation of system past the expiration date of the permit will be **unlawful** and may be subject to formal enforcement action.

If our records are incorrect, or if you do not desire to renew your permit (you must submit a Notice of Termination), or if you need more time, please respond by letter to the address below or by email to the address above as no later than August 4, 2018. Failure to submit the requested information could result in enforcement action.

Thank you for your cooperation in this matter. If there are any questions concerning this submittal, please contact me at (501) 682-0620 or by email at [jamal@adeq.state.ar.us](mailto:jamal@adeq.state.ar.us).

Sincerely,

Jamal Solaimanian, Ph.D., P.E.  
Engineer Supervisor
