A request was received on April 19, 2018 to allow for additional testing on the drip fields and for the submittal of a revised waste management plan based on the results of the additional testing. Please submit an updated waste management plan or letter to proceed with the current waste management plan to the Department no later than **two weeks from the date of this letter**. Upon receipt of updated waste management plan or letter to proceed with the current waste management plan, processing of your application will continue. The facility's operation must be in compliance with the latest WMP submitted and approved by the Department. Any noncompliance with the Permit conditions and the WMP will be referred to our Enforcement Section.

Thank you for your cooperation in this matter. If there are any questions concerning this submittal, please contact me at (501) 682-0651 or by email at mcwilliamsk@adeq.state.ar.us.
