This is to give notice that the Arkansas Department of Environmental Quality (ADEQ) Water Division, 5301 Northshore Drive, North Little Rock, Arkansas 72118-5317 at telephone number (501) 682-0648, proposes modification of the draft permit for which an application was received on 5/9/2013 for the following applicant under the Arkansas Water and Air Pollution Control Act. The Department inadvertently excluded appropriate permit requirements, limits, and specific conditions during the issuance of Permit No. 4899-WR-1. This permit is to resolve these exclusions.

This permit is for the operation of a decentralized waste water treatment system with drip irrigation dispersal of treated wastewater for a residential subdivision. This type of systems is also classified as Class V shallow injection wells under the provisions of APC&EC Regulation No. 17.

The facility is located in Stream Segment 4I of the White River Basin. This is a modified draft permit and only the modified portion of the permit is open for comment.

Comments and public hearing procedures may be found at Regulation No. 8 (Administrative Procedures). All persons, including the permittee, who wish to comment on ADEQ's draft decision to modify the permit, must submit written comments to ADEQ, along with their name and mailing address. After the public comment period, and public hearing, if one is held, ADEQ will issue a final permitting decision. A public hearing will be held when ADEQ finds a significant degree of public interest.
