RE: Permit Number 4899-WR-3, AFIN 45-00214

Dear Mr. Hames:

Please be advised that the above referenced permit will expire on **October 31, 2023**. To date, our records show that you have not reapplied for the renewal permit. We are aware that you still have time in which to submit a renewal application. However, in order to continue operating after the expiration date of the existing permit, a **complete** renewal application must be received by the Office of Water Quality no later than **May 4, 2023**.

Please be advised, **the subject permit is no longer valid after the expiration date**. If a complete renewal application or request for an extension is not received by **May 4, 2023**, this will be in violation of your current permit and state regulations.

If our records are incorrect, or if you do not desire to renew your permit, please respond by letter as soon as possible. If you need more time to submit the renewal application, please submit your request in writing to the Director of the Division of Environmental Quality prior to **May 4, 2023**. Documents may either be submitted to the address below or emailed, in PDF format, to water-permit-application@adeq.state.ar.us.

Division of Environmental Quality
ATTN: Office of Water Quality, No-Discharge Permits
5301 Northshore Drive
North Little Rock, AR 72118

A copy of the application forms can be obtained at the following website:
<https://www.adeq.state.ar.us/water/permits/nodischarge/individual/>

A checklist is enclosed with this letter for your convenience. The checklist is to assist in submitting an administratively complete application. Any questions regarding the permit renewal forms should be communicated to the contact person listed at the end of this letter.

Thank you for your cooperation. If you have any questions, please feel free to contact Katherine McWilliams at 501-682-0651 or by email at mcwilliamsk@adeq.state.ar.us .

Sincerely,

A handwritten signature in black ink, appearing to read "Jamal", with a long horizontal flourish extending to the right.

Jamal Solaimanian, Ph.D., P.E.
No-Discharge Engineer Supervisor
Office of Water Quality, Division of Environmental Quality
