---

Please save our beautiful Buffalo River. Morally and economically, all arguments logically end in favor of the river's preservation. Why should an industrial pig farm's needs take precedent over the needs of an entire state? They cannot bring more jobs or revenue than the river can. They cannot bring more beauty, inspire more awe, or dispel more despair than the river can. We need the river. Arkansans need the Buffalo River. We do not need a pig farm. We do not want a pig farm where it causes harm. Please do what's right for us.

Sincerely,

Amy Hazel
