---

It is very important to all agricultural that c&H farms receive there permit of handling there manure is a safe manner just like they always have  
They have been a public target for way to long !!!!  
They need the support they deserve by being granted this permit so they can do there jobs as farmers and keep raising the pork the hole state of Arkansas loves to eat after all a hog is the largest reconized mascots we have in the sports world  
Thanks to all adeq employees for makeing this permit happen,,,
