Governor Hutchinson & ADEQ:

My family and I spend a lot of time at the Buffalo River swimming, canoeing, and fishing. Please protect it in every way possible from contamination. Let's keep Arkansas the natural state by protecting our waters and streams. No one wants to swim or fish in a river that's contaminated with swine feces or urine. In doing so, Arkansas will be a model for America in saying no to water contamination for corporate profit.

Please deny the Regulation 5 permit for the C&H swine factory in the Buffalo River watershed. This industrial operation has no business in the geologically sensitive karst environment of our own national river. Any failures or long term degradation risks a \$62M tourism industry in one of the poorest areas of our state. Deny it because it makes economic sense. Deny it out of respect for the Arkansans who came before you who fought to protect it.

Sincerely,

Angela Stout-Eveld
