Subject: C & H Hog Farm Buffalo River
Date: Wednesday, March 15, 2017 2:35:10 PM

This hog farm should have never been granted an operational permit to begin with. The Buffalo NATIONAL River has already been polluted enough from the time C & H has been in operation.

Please do NOT grant them another operating permit. We kayak regularly on this river & it is attracting more out of state visitors which is good for our economy. The pollution caused by the hog farm is destroying this beautiful resource.
