Subject: Grant C&H Hog Farm's Permit Request

The general public as well as many officials are far too ignorant of all production agriculture and should make an effort to educate themselves by putting themselves in farmers shoes.

As a farmer, I am distressed to see how C&H Hog Farms has been portrayed by many seemingly uninformed people. When you have a farmer who is willing to not only allow monitoring of his farmer but drilling to prove his good work, you know they are determined to do right. This is the kind of farmer the state should be proud to stand behind. Please grant their request for final permit.

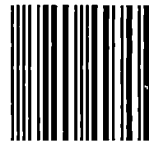

Please help these farmers and others by granting this permit. We are not the enemy.

Sincerely,

Barry Huber
