Dear Sir:

I rode 14 miles on the upper Buffalo river last week and saw hog wallers and tracks everywhere. My horse sometimes would almost fall, when crossing through them, they were so deep. Instead of worrying about the unlikely possibility that C & H Farms are going to pollute the Buffalo River, it seems like the attention of those trying to keep the Buffalo River pristine would concentrate their efforts on things that ARE polluting the river and surrounding area.

Please give C & H Hog Farms the permit they so richly deserve.

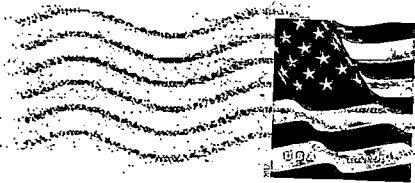

Thank you for your consideration,
