Subject: NO Hog Farms in the Buffalo River Watershed
Date: Thursday, April 06, 2017 2:43:38 PM

Please do NOT allow C&H Hog Farms to add more farms to the Buffalo River watershed. This business can locate to another area, but the Buffalo River cannot. If runoff from these farms harms the Buffalo River water quality, then not only will we lose a beautiful National River and a tourist attraction, but hundreds of people that rely on those tourist dollars will lose their jobs. Please DON'T endanger this one of a kind Arkansas attraction.
