---

In addition to all the ecological and the economical reasons for denying this permit, there are the more important , HUMAN reasons, to DENY this action !!!

PLEASE DENY this permit, the Regulation 5 permit for the C&H Swine factory, in the Buffalo Natl. River watershed, because of ALL the OUT of STATE families who helped fight for this BEAUTIFUL river to become a NATIONAL river, so many years ago !!! DENY it because this river is a place that generations of those same families STILL come and bring THIER families and friends, to enjoy this piece of HEAVEN that GOD saw fit give your state !!!

yours in FERVENT PROTEST, Catherine {Shay} Branch & families
