North Little Rock, AR 72118

Dear Sir or whom it may concern,

We wish to comment on the tentatively approved new permit for the C+H hog farm located within the Buffalo River watershed. A first permit should never have been approved in the first instance. This factory farm-type of operation must never again be permitted.

Sadly, those responsible for not protecting this area have never been held accountable. We wish to receive assurance that such a facility will never be allowed again!

Sincerely,

C. Schiele W. Sch...
