---

To whom it may concern,

Please do not allow the hog farm to remain on or upstream of the Buffalo National River. I have many good memories at this river and visit it several times each year. Protect this scenic national treasure instead of allowing the hog farm to degrade it.

I would very much appreciate if you were to deny the Regulation 5 permit for the C&H swine factory in the Buffalo River watershed. This industrial operation has no business in the geologically sensitive karst environment of our own national river. Any failures or long term degradation risks a \$62M tourism industry in one of the poorest areas of our state. Deny it because it makes economic sense. Deny it out of respect for the Arkansans who came before you who fought to protect it. Thanks for your time.

Sincerely,

Catherine Halloran
