Subject: Deny the Regulation 5 permit for C & H Hog Farm renewal
Date: Thursday, March 30, 2017 6:27:38 PM

To ADEQ,

This email is sent because of my grave concern for the well being of our very special, Buffalo National River. Please deny the Regulation 5 permit for the C & H Hog Farm renewal.

This facility is on karst soil, which is very porous. Apparently, proper geological testing was not performed prior to allowing this "farm" to be built. Our state deserves better management of our natural resources.
