Questions Comments:

I support the C & H Hog Farms application for a new regulation 5 permit for their farm. These folks do all they can to do things by the laws set forth and yet people complain. And I bet the majority of them eat bacon often. Gone are the days of being able to grow enough food to feed the nation by traditional means of 1 farmer and a few head of livestock. Please allow them the opportunity to continue running their business on their farm until such time arrives that show they are breaking any laws. They are good people and I don't see that happening! Thank you for reading this message!
