

Can no one see the obvious? You have a liquid on the top of the hill, it will run down the hill. A highly concentrated toxic pool of hog sewage poses a catastrophic danger to something that belongs to us all. You are the gate keepers to protect ~~our~~ our treasure).

Hear our collective voice please. Correct your mistake. I am not a geologist or a scientist. But I am aware of the topography of the region. ~~The~~ The Kars limestone is famous for leaching ~~water~~ surface water. Years ~~of~~ of dye ~~and~~ studies with septic systems prove this. And now we have a perfect storm waiting to happen. As I understand we have ADEQ. This must be reversed. Please make the right decision. You know what is at stake and how devastating the consequences will be. You must please!

I am not speaking for anyone but myself. I drove up from L.R. Africa work today just to be here to support my Buffalo. Your Buffalo River. I love the river like I am sure everyone here does.

Please Do NOT Permit!
