To whom it may concern

I am VERY concerned about the Hog Farm on Big Creek. My sister and her husband were visiting from California and I took them for a hike to Sam's Throne and we could SMELL THE HOGS on the trip though the area...up Mt. Judea. It was AWFUL. I was shocked.

I LOVE the Buffalo River and have helped Ken Smith with Trail Building. This river is a NATIONAL TREASURE AND one of our BIGGEST tourism draws with floating. What a tragedy if we wait until it's TOO LATE.

This Hog Farm is an environmental disaster in my opinion and I would love to see it shut down.
