

To whom it may concern

I am VERY concerned about the hog farm on Big Creek. My sister and her husband were visiting from California and I took them for a hike to Sam's Throne and we could SMELL THE HOGS on the trip though the area...up Mt. Judea. It was AWFUL. I was shocked.

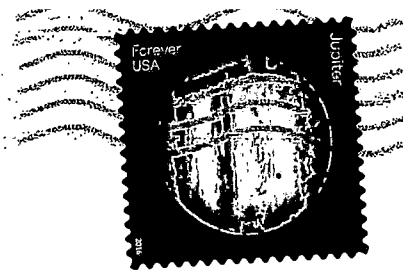

I LOVE the Buffalo River and have helped Ken Smith with trail building. This river is a NATIONAL TREASURE AND one of our BIGGEST tourism draws with floating. What a tragedy if we wait until it's TOO LATE and pollute the river and folks stop wanting to come and explore its beauty.

This Hog Farm is an environmental disaster in my opinion and I would love to see it shut down.
