Ms. McWilliams,

Arkansas is a beautiful state and the Buffalo River is a shining jewel that needs protection. It is hard to believe that a hog manure generation factory could not find a more suitable location that would not only be less ~~potentially~~ potentially damaging to our natural resources but also less damaging to the hog growers reputations.

Please prevent any new permitting for this unfortunate source of pollution.

Ms McWilliams,

I would like to register my  
opposition to new permitting (+ old)  
for C + H hog farm.

I am not anti-farming (quite  
the opposite) or anti-business.

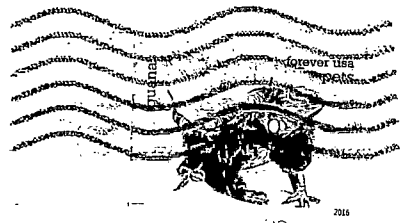

However the Buffalo River is too  
precious a resource, + too valuable  
a tourist attraction, to risk. I  
look forward to sharing this wonderful  
jewel with my grand daughter.  
Please make sure we can experience  
this clean natural beauty!

Thank you,
