Governor Hutchinson and ADEQ:

Please do all you can to save our beautiful Buffalo National River from pollution because of the swine factory in the river's watershed. Please deny the Regulation 5 permit for the C & H hog farm. Our state needs the river more than we need the hog farm. It grieves me to think that we would let this wonderful water resource be destroyed and that future generations would not be able to enjoy it. Too many people through the years have worked too hard to enable us to have this National River, for us to let anything happen to it now.

Thank you.

Freddie Nixon
Little Rock, AR
